

Greetings CHIQUITINES!

Welcome to an Exciting Year of Learning and Discovery!

I am thrilled to extend a warm welcome to each of you as your Magnet School Coordinator for this academic year. You can call me Ms. Berriz and I am excited to embark on a journey of exploration, growth, and learning together.

Beyond my academic background, I have a wonderful family that includes a beautiful 17-year-old daughter and a fantastic husband with whom I have shared more than 30 years of companionship and support. Our home is also filled with the joyful presence of a playful dog, and at school, we have a delightful bird Ashy, that adds to the lively atmosphere.

*As your Aviation and Aerospace Magnet School Coordinator, I am dedicated to creating an environment that encourages curiosity, critical thinking, and a love for learning. I am passionate about **science** and **math**, and I firmly believe that **imagination** is the most valuable skill a person can possess. Together, we will explore the wonders of the world around us, engage in exciting experiments, and delve into the realms of creativity and innovation!*

Beatriz.BerrizCastro@ocps.net

Allow me to share a little about myself with you. Originally from the vibrant island of Cuba, I pursued my passion for engineering in the fascinating world of robotics in Russia, where I completed my Bachelor's degree. Later, I deepened my knowledge and skills by earning a Master's degree in English as a Second Language from Turabo University.

Find me in the STEM lab! I am always willing to support each of you on your educational journey and I look forward to getting to know you better as we share this school year. If you ever have questions, ideas, or just want to chat, my door is always open.

Here's to an enriching and inspiring year ahead! Get ready for a fantastic adventure in learning
